WAITING FOR THE SPRING.

As breezes stir the mopping,
A sense reigns in air;
Steel blue the heavens above me,
Moveless the trees and bare;
Yet nought to me the stillness
This burden seem to bring—
"Patience! the earth is waiting,
Waiting for the Spring."

Strong ash and sturdy chestnut,
Rough oak and poplar high,
Stretch out their cheerless branches
Against the winter sky,
Even the guilty aspen
Has ceased its quivering,
As though she too were waiting,
Waiting for the Spring.

I strain mine eyes to listen,
If haply where I stand
But one strain of music
May sound in all the land.
"Why art thou mute, O blackbird?
O thrush, why dost not sing?"
Ah, surely they are waiting,
Waiting for the Spring.

Oh, heart! thy days are darksome;
Oh, heart! thy nights are drear;
But soon shall streams of sunshine
Proclaim the coming year.
Soon shall the trees be leafy,
Soon every bird shall sing;
Like them, be silent, waiting,
Waiting, for the Spring.

PAPERS IN SAN FRANCISCO.

A friend writing from San Francisco under date of the 21st instant, gives us the following in relation to the business press of that city, its usefulness, popularity and fitness:

THE PRESS.

For a long time past it has been our custom to cry down the principle, honesty and ability of our papers, especially the dailies. While the contest for supremacy lay between the *Alta* and *Bulletin*, if a contest could exist where there was no occasion for rivalry to obtain either subscribers or advertisements, the honesty and ability of both were, perhaps, at the lowest point ever known during their existence. The *Alta*, for many years, satisfied with being a good business and commercial paper, for none can deny its merits on that score, seldom attempted to direct public principle, or attack public abuses; while the *Bulletin*, after the death of the able, brilliant, solid Nesbitt to much, if not all, of its characteristic phugency and daring condemnation of public evils, official corruption, and political trickery. The *Flag* made its appearance at a time, when if judiciously managed might have become, with but little exertion, a great, wealthy and permanent institution, but in spite of its spasmodicability, and no doubt honest intentions, never attained a power that interfered with its old established compeers, and consequently they jogged along in their old humdrum style, and it died. After a short interval the Daily *Times* was started; and, if it is not more able, more honest, or more courageous than its predecessor, it has had somehow infinitely more influence on public taste, public opinion, and public principle. It is difficult to assign a cause for this power, for in no respect is it equal to either the *Alta* or *Bulletin*; yet since its inauguration both have thought it necessary to look to their laurels and their business. The effect of this fear has been such an improvement in the intellect and matter of our dailies, especially the *Alta*, that it would be difficult to find in any city, of its size and age, a better conducted or better appearing press than we now boast. It is a dangerous thing, in all conditions of life, to despise public opinion, and presume upon public indifference. When public men, in their private or corporate capacity create a necessity for competition, they are fortunate if they escape destruction. In this case the necessity was met nobly, and the *Times*, though it has, perhaps, established itself permanently, will never equal or seriously interfere with the others. We have recently had a new evening daily started in opposition to the *Call*; but it was not needed, has no merit, and its existence is very doubtful. One picayune paper was enough for us. Anything picayune in intellect, matter, arrangement, type, price and size does not suit San Francisco. The *Call* is thoroughly master of that field, and defies competition. Like Jeff Davis it only requires to be left alone. The *Examiner* suits its party, but it is not seen or felt beyond. The weeklies are all creditable to our community, and liberally patronized; but, the recent change in the editorship of the sprightly *News Letter*, will, I think, be too American, judging from the last issue, to suit its party. Otherwise, it is wonderfully improved and becoming very popular.

THE DRAMA AN INDEX OF REFINEMENT.—The San Francisco Dramatic *Chronicle* publishes an article headed the "Success of the Drama an Index of Refinement," and seems to hold that where the drama is well patronized—which constitutes its success—there refinement and the polite arts flourish. This may be so, but from our exalted stand-point—some twenty-seven hundred feet above the sea—we can't see it. But as the *Chronicle* is engaged in resuscitating the "drooping energies of the drama" in San Francisco, we will allow it to speak for itself, premising that it depends greatly upon the character of the pieces propuced whether they exert an influence beneficial to society or not. In our rural verdancy we are inclined to doubt the exalted and refining influence of such polite and moral plays as Dick Turpin, Jonathan Wild, Three Fingered Jack, or even that blood thirsty old scoundrel Richard, III., and others we could name that the most successful managers place before the public when they most need a full house. The *Chronicle* says:

"Notwithstanding the rapid expansion of liberal ideas, there is still a formidable chasm between the Theater and the Church. Although that awful spell "all flaming with infernal fire," is less and less perceived by the more distinguished and enlightened clergymen of all denominations, it is still kept in popular view by the less informed and more superstitious of ecclesiastical teachers, who are wholly oblivious to the fact that wherever the Drama is most popular and successful, civilization and enlightenment attain their greatest perfection. This rule has been without an exception since the birth of nations, and has prevailed in the experience of every great State from the time of Athenian splendor to the present. It is indeed strange that under the wide zone of enlightenment which is now encircling the earth, the religious world still refuse to acknowledge the Drama as belonging to the royal family of Arts, and still cling to an unreasonable superstition which belongs to the darker of extinct ages. The Church is not offended when the sculptor embodies his conceptions of ancient heroes in marble, or when the painter employs canvas to preserve his ideal of memorable events; but when the actor appears in living presence, and in the appropriate costume of the times represented, religion veils her face and turns away with distress and horror! This is due to the remaining influence of a dying out superstition, which will after awhile wholly fade out under the advancing light of refinement. The great gulf of separation will eventually disappear, and the Church, the Drama, and all the Arts will march together in friendship and unity.—Looking back over the brief history of our own country, it must be acknowledged that the Drama, as well as the Church, has had a mighty agency in the extirpation of the slavery barbarism, and the restoration of Man to his rightful condition. The pathetic scenes in the Octoroon and Uncle Tom's Cabin, though toned down and distorted under the requirements of a national intolerance, have had a vast influence in melting the public heart, creating a national sympathy for the slave, and preparing the country for the condition of universal freedom."

THE AMOUNT AWARDED.—The amount of damages awarded the State for back rents and profits on the different wharves, the control of which has just been placed in the hands of the Board of State Harbor Commissioners, according to stipulations filed in the Fourth District Court, yesterday, are as follows: For the Pacific, Broadway and Richardson's wharves, each, $15,000; for the Central Wharf, $5,000. Total, $50,000.—*Alta.*

THE LIGHT OF THE WORLD.
DR. MAGGIEL'S
PILLS AND SALVE!

These Life-giving remedies are now given to the world. For over a quarter of a century of private practice the ingredients in these

LIFE-GIVING PILLS!

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and startling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

AN ETERNAL SPRING!

It was left for this day and hour to realize the dream, and show in one glorious fact, the magic that made it fair.

THESE FAMOUS REMEDIES!

Cannot stay the flight of years, but they can force back and hold aloof, diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

FOR BILLIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

FOR CUTANEOUS DISORDERS

SEMI-WEKELY ENQUIRER.

SATURDAY, FEBRUARY, 23, 1866.

THE second night of the exhibition at Gold Run was a decided success. It could not be considered a repetition of the first night's performances; on the contrary, most of the pieces and all of the music was new, with an improvement on the first night, in having instrumental music during the intervals. The stage business was also considerably improved; less delay in bringing on pieces, and an entire absence of all confusion. The audience on this occasion was large, the house being filled to its capacity. The recitations were admirably given by Masters Stokes and Moore, and Misses Beninger and Mary Price, and others of the little ones whose we did not learn. The dialogues and charades in which the above and Misses Rice, Paccaud, Bunton and Barrett appeared were performed in a manner worthy of all commendation, reflecting credit upon themselves as well as upon their instructors. The proficiency of the little ones was indeed remarkable, and was, as is always the case in such affairs the admiration and pleasure of all who love the purity and innocence of childhood. Verily, "a thing of beauty is a joy forever." The Misses Price sang many songs and glees in an admirable style, and to the great applause of the audience; these ladies fully sustaining their reputation as sweet, delightful singers. Miss Beninger sang the "female auctioneer," in which she acquitted herself in good style. Miss Barrett closed with a valedictory in a graceful and impressive manner. On the whole, the second night was, in many respects, superior to the first, and gave more, if possible, general satisfaction. The sum realized from the two exhibitions was considerable, and goes to a worthy object: in erecting a fence around the grave yard at Gold Run. Mrs. Mason, who originated and managed the movement should have the thanks of the community, for thus devoting her time and attention to an object of equal interest to all.

ALL RIGHT.—The big pipe laid down by Messrs. Bradley & Gardner has been thoroughly repaired and is now in first rate condition, answering the purposes for which it was intended to the satisfaction of all concerned. We are told that the cause of the breakage which occurred two or three times is attributable to the fact that the thin iron of which a portion of the pipe i made, and was designed to be placed at the upper end or next to the ditch that supplies the pipe where the pressure is but small, was placed in some of the lower sections where the pressure was the greatest, and of course bursted as soon as a full head of water was turned on. This, however, has been remedied and immediat fore the last storm the pipe was filled and sustained the immense pressure admirably, supplying water to six companies who were ready to receive it, and carrying a surplus to meet all the demands that are likely to be made. The construction of this pipe enables all who own claims on Gray and Thompson Hills to work them hereafter without hydrance to themselves or interference with the rights of others, which they were not able to do before, for several reasons, the principal one of which was, the ground they desired to wash was that along which the ditch was located, and in washing it away they cut off their supplies, and not being able, like Sherman in making his campaign through Georgia, to cut off all connection, they have consulted the interests of those concerned by adopting the pipe, which gives them a much greater pressure for hydraulic purposes and consequently furnishes better facilities for prosecuting their work.

SEVERE STORM.—During the present week we have been visited with a most severe storm of snow and rain, continuing, with but slight intermission, up to yesterday. It is estimated that more snow has already fallen at this place than at any time up to the same period, since the settlement of the town. The fall of snow above this place is immense; a gentleman who came over the road from Wilson's ranch, six miles below Cisco, on Wednesday last, informs us that the snow is from seven to nine feet deep. The amount of new snow which has fallen at Cisco up to yesterday morning was six feet, making the entire depth some ten feet. Of course our mail facilities are interrupted, the trains not making their trips upon schedule time. We have not, however, been without our mails a day yet, and as soon as the storm ceases to allow the road hands an opportunity to work we will doubtless get our mail matter at the usual hour, 9 A. M.

CONTRACT LET.—The proposals for building the wagon road from this place to Little York were opened on Wednesday last and the contract awarded to H. Polley and E. C. Uren, for the sum of Five thousand, two hundred and twenty-five dollars, that being the smallest bid. This looks as though the Company means business. The width of the road is to be twelve feet, with an average grade of about fourteen feet to the rod. Mr. Colby is making a road from You Bet to Little York, and when the two are completed, opens uninterrupted stage communication between this place and Grass Valley and Nevada at a distance of sixteen miles.

NEW FLOUR MILL.—The *Herald* says the new mill at Lincoln is now completed in all its parts and has commenced operations In noticing its completion, that paper says: "It is built near to and on the side of the Central Railroad, and is constructed of a substantial frame, three stories high, resting on a brick foundation. The building is 70 by 50 feet. The motive power is a first class fifty horse power engine; there are three run of burrs, which are capable of turning out 200 barrels of flour per day. The cost of this fine mill has been as follows:

Lumber	$4,500
Engine and Boilers	6,300
Mill Machinery and Burrs	8,000
Sundries	1,000
Labor	6,200
Freight	2,000
Artesian Well	1,000
Total	$29,000

As the mill is located in the midst of a fine grain growing country it can be easily supplied with sufficient to keep it running constantly, and then its convenience to Railroad transportation furnishes an easy mode for the proprietors to furnish a large extent of country. We are always pleased to notice such improvements in our county.

ACCIDENT.—We are sorry to learn that the Hon. James E. Hale met with quite a painful accident a few days ago; while out hunting with a party of friends near Auburn, he received a charge of bird shot in the face and side, one shot going through his nose and another penetrating his eye socket, without, fortunately, injuring the pupil. He bled considerably, but we are glad that his physicians pronounce him out of danger as to any serious results.

NEW HEAD.—The *Stars and Stripes* comes to us this week with a new head, which greatly improves the appearance of the paper, as indeed, almost any change would have done. With a few more changes, which the editor says he intends to make—when he gets the money—the paper will probably present a different appearance.

PRAISEWORTHY.—When the fact was brought before the notice of the Trustees of the Union Church that the house was requested for the use of the lectures in aid of the Soldiers' and Sailors' Monument Fund, they immediately passed a resolution tendering the use of the house gratis.

THE ABOMINABLE TAX ON KNOWLEDGE.

The following just remarks we hope will be read by all. This subject has been time and again brought before the people and it is high time some action should be taken. Taxes are all very well when levied for legitimate purposes, but when they are made to operate to the injury, and are a hardship to the great majority that a few *aristocrats* may be gorged from the labor of the many, we think it is time to complain. The tariff on paper of every description is so high as to effectually keep out all competition from abroad. This is not only the case with private enterprise, but operates equally to the injury of the Government. The Chicago *Tribune* in noticing the despatch giving the item of the intention of the Congressional Printing Committee to issue proposals for supplying the Government Printing Office with sixty thousand reams of paper of an inferior quality in order to save to the Government $40,000, says: "We can put the Printing Committee, and also the Committee on Retrenchment on the track of a method whereby the Government may save *forty times* forty thousand dollars on the paper it consumes, without reducing the quality of any grade. The method is a very simple one. It consists in repealing the present duty on imported paper. This duty is a direct tax of twenty per cent. in gold on every pound of paper consumed by the National Government, by each of the State Governments, by every City and County Government. It is a tax of twenty per cent. on all the books and paper used in every free school, private school, college, academy, and institution of learning in the United States. It is a tax of twenty per cent. on every sheet of printed paper purchased by the people of the United States. Who receives this tax? Does the Federal Treasury? The Committee on Printing and the Committee on Retrenchment perhaps will be surprised to learn that, notwithstanding the imposition of a duty of twenty per cent. on foreign paper, the Treasury receives no revenue therefrom, for the simple reason that there is no printing paper imported, or at least so very little that the amount is not worth considering. An inspection of the revenue returns for the last thirty years will show that the Government has not received twenty thousand dollars a year of income from the duty on imported paper. The purchase of foreign paper does not average one sheet to every hundred reams manufactured by the American paper makers. They have had a complete monopoly of the entire home market for this article for more than a generation. The present duty is practically prohibitory, and therefore revenueless. In the very nature of things it is impossible for the paper makers of any foreign country to compete, seriously, for the American market, with our home paper makers. The raw materials are mainly produced in this country. The power used is water, which is certainly as cheap as steam in England or Belgium, and the difference in labor is fully offset by the cost of transportation from Europe hither, with commissions, insurance and storage added thereto. If Congress will place on the free list a few articles purchased abroad by the paper manufacturer, such as bleaching powders, soda ash, felt cloth and wire gauze—the revenue upon which can readily be spared—there would then remain no imaginable pretext for retaining the impost on imported paper. Let Congress repeal the duty on imported paper, and at the same time place on the free list the items we have named, and thenceforth the publishers, book-makers and people of the United States will have cheap newspapers, magazines and books; the circulation of newspapers will greatly increase; the sale of books and periodicals will be materially enlarged; the demand for paper will be so enhanced as to keep all the mills fully employed in supplying it. More work will be furnished for printers and pressmen, for type and ink-makers, and the Government will save a round million a year on the cost of the white paper it consumes.

We have said the duty on paper is twenty per cent. But it is more than that. Congress last July increased this impost at least five per cent. without cause, petition or justification. It was done in this way: To the invoice price of paper is added the ocean freight, insurance, commission, dockage, storage, drayage, wrappage of boxage, and the duty is levied on the aggregate amount. The effect of this mode of levying imposts is to raise the duty on paper more than five per cent., so that the present impost exceeds twenty-five per cent. on the foreign value. And the paper makers have added this five per cent. to their prices. We denounced this act of Congress as an outrage and downright swindle on publishers and consumers of paper in the United States. Not the slightest cause existed then to justify it, and none exists now for its retention, It was a purely arbitrary and gratuitous imposition."

MURDERERS ARRESTED.—A dispatch dated at Petaluma, February 15th, says the murderers of one McKeon, an account of which was published in our Wednesday's issue, were captured at 4 o'clock, P.M., on Thursday. They proved to be three Bodega Indians. The citizens got on their trail early in the day, and after a long chase surrounded them. They showed fight as they were approached, and fired upon the citizens, when the fire was returned by about a dozen men, killing one of the Indians dead, and severely wounding the other two, when they surrendered. The one killed is an old desperado, who about four years ago killed McPhelan, who kept a store on the same spot where McKeon was killed. He escaped at that time, and has never been seen since until now. The wounded Indians had $150 in coin on their persons, and a quantity of goods taken from store. They acknowledged killing McKeon. They also implicated two Mexicans, whom they say took two hundred dollars each and left them. Deputy Sheriff Austin passed through here this afternoon with the two wounded Indians, on his way to San Rafael."

A KIND WORD FOR MOTHER.—Despise not thy mother when she is old. Age may waste a mother's beauty, limbs, strength, senses, and estate, but her relation as mother is as the sun when it goes forth in its might, for it is always the meridian and knoweth no evening. The person may be gray-headed, but her mother's relation is ever on the flourish.—It may be autumn, yea, winter with a woman, but with the mother, as mother, it is always spring.—Alas, how little do we appreciate a mother's tenderness while living! How heedless we are of all her anxieties and kindness! But when she is dead and gone, when the cares and coldness of the world come withering to our hearts, when we experience how hard it is to find true sympathy—how few will befriend us in misfortune—then it is that we think of the mother we have lost.

A HINT TO DISTILLERS.—A useful hint is given by a correspondent to an Eastern exchange on the mode of making good wine after the grape has been pressed. As we have several who are occupied in this pursuit in this county, we give the hint a place for their benefit: "A tin tube made like a syphon, driven into the vent of a barrel of wine, or cider, and the other into a bottle of water will prevent the air from entering the barrel, while the gas escapes through the water. Make the barrel otherwise tight. When the wine or cider is done working, the water in the bottle will cease bubbling. It requires no filling up and there is no loss. The tube can be made by any tin plate worker, and when once made can always be kept for future use."

STOP THAT COUGH.—Buy you a bottle of Hall's Pulmonary Balsam, and save a doctor's bill.

LETTER FROM SAN FRANCISCO.

[FROM OUR SPECIAL CORRESPONDENT.]

SAN FRANCISCO, February 21st, 1867.

MR. EDITOR:—Shortly, the great issues of the day, involving the integrity of the country will be forced upon our individual attention; instead of details, trifling to a certain extent in their nature and effect, we must come to argument—and in that hour, I believe, I shall speak to the satisfaction of *your* subscribers.

THE LATE RIOT.

All is again quiet on the Potomac, and the great public work, eventually to be such an improvement to our city, upon which the Chinese laborers were engaged, goes on merrily, further demonstrations of hostility being cowed by the presence of a large police force, thoroughly armed. The ringleaders have been arrested and partially tried, but their cases were not finally disposed of. I refer to this matter again, because it is of a more serious nature than appears at first blush, when we consider its future consequences. It involves the great principle of retribution which may come home to ourselves at any hour under disastrous circumstances. Apart from the inherent disgracefulness of such outbreaks, so far as they affect our manhood, civilization and country, we have an *individual* interest in the matter which may go hard with us thereby. You are, of course, aware that we lately opened a very extended intercourse, business and steam communication with China and Japan, and celebrated its inauguration on New Year's day with a grand public dinner. Now such acts as those under review, not only belie the beautiful theory of our Government, and the freedom of our country, but they belie the principle of reciprocity on which we pretend to found a desire for extended commerce and communication. The Asiatics may turn now upon us, and say, your freedom, your liberty, your justice and your friendship are alike false. A few years ago you sent out ships of war, and punished us severely, because in obedience to our customs, our traditions, our laws, and in our ignorance of international courtesy some of your people were killed in our country. What are we to do now? How can we revenge this outrage on our people? We have no ships of war capable of punishing you as you deserve, but we can close our country to you, and maltreat your people while amongst us. And so San Francisco would lose one of her greatest sources of commerce to gratify the evil passions of a set of lazy drones. What could we wage against such retributive justice? How sad a thing it is, when Americans forget they are representatives of universal liberty and right. For these reasons, I hope, the criminals will be punished!

BLACK MAIL.

We have recently had another of these vile cases so common and disgraceful to our city which we devoutly hope will go far towards rooting it out forever. I ought to have referred to it before, and by this time I presume, you are familiar with the particulars. In justice, however, to Mr. Hayward, the party accused of defrauding the Government, a few words may not be out of place. Mr. H. is the owner of the great quartz mine at Sutter Creek; and, to more than any man in the country, are we indebted for showing what energy, skill, and economy will do in manipulating low-rate ores. He now enjoys the income of an English nobleman, using it better than they oftentimes do, his success, his life, form a most valuble lesson to study in California. The man with an income of $100,000 a year attempting to cheat the Government of a sum $2,000 would hush up is so supremely ridiculous that no sane man can have any doubt as to the motives that actuated Cornwall, the attorney, whatever charity he may extend to Pennypacker, the Informer. Even if Mr. Hayward were not known to be a generous and liberal man his honor has never been questioned when his surroundings in various ways would have swamped ninety-nine men out of a hundred. Blackmailing is a hideous excrescence which grow out of a mixed community like ours, naturally. For many years it was one of our greatest rebukes. Unfortunately, it has prevailed to a great extend to the present time; if the vagabonds seriously wished to give it a death-blow, they could not have tried it on in a better quarter; and if Cornwall be finally convicted it will certainly go far towards producing that happy result. HERMES.

IN MEMORY.

At a special meeting of Hawkins Lodge, I. O. of G. T., No. 216, held at their hall in Dutch Flat, on Monday evening, February 18th, the following preamble and resolutions were unanimously adopted:

WHEREAS, God, in His inscrutable Providence, has deemed fit to remove from our midst brother JACOB LINDSEY, D. D. G. W. C. T., and an active member of our lodge, in the prime of life and usefulness; and although we bow with humility to His decrees cannot but sincerely regret the sudden departure of our brother. Therefore,

Resolved, That in the person, life and character of the deceased, we recognized the true, upright, and consistent Good Templar, the firm and unswerving friend and a bright ornament to all.

Resolved, That we deeply sympathize with the widow and relatives of the deceased in their bereavement and loss of one so dear, and sincerely condole with them in their affliction; yet, while feeling the the loss remember that God "chasteneth whom He loveth."

Resolved, That as a proper token of respect to his memory, the hall be draped in mourning for the space of thirty days.

Resolved, That we procure the services of Rev. P. Y. Cool, to preach a funeral sermon on Sunday, Feb. 24th.

Resolved, That a copy of the preamble and resolutions be forwarded to the widow of the deceased, and that they be also published in the ENQUIRER.

Messrs. Pope & Talbot, Main & Winchester, H. J. Booth & Co., L. & M. Sachs & Co., Hentsch & Berton, Conroy & O'Connor, and others:

GENTLEMEN:—The request to me to become a candidate for the honorable place of Governor of the State, endorsed by many citizens and business firms of the city, is such a marked compliment that I would not feel at liberty to decline, even if so disposed, and I promptly acknowledge my obligations to you in furnishing this acceptable opportunity to declare my willingness to become a candidate, subject to endorsement by the Union State Convention of 1867.

Respectfully, yours,

S. T.—1860.—X.

"JES' SO!"—"EXACTLY!"—Solon Shingle said; they were there "every time." If he felt "owley" in the morning, he took Plantation Bitters; if he felt weary at night he took Plantation Bitters; if he lacked appetite, weak, languid, or mentally oppressed, he took Plantation Bitters and they never failed to set him on his pins square and firm.

A few bottles of PLANTATION BITTERS

Will cure Nervous Headache,
" Cold Extremities and Feverish Lips,
" Sour Stomach and Fetid Breath,
" Flatulency and Indigestion,
" Nervous Affections,
" Excessive Fatigue and Short Breath,
" Pain over the Eyes,
" Mental Despondency,
" Prostration; Great Weakness;
" Sallow Complexion, Weak Bowels, &c.,

which are evidences of

Liver Complaint and Dyspepsia.

After a long research, we are able to present the most pleasant, the most remarkable cure for those horrid nightmare diseases the world has ever produced. Within one year over six hundred and forty thousand persons have taken the Plantation Bitters, and not an instance of complaint has come to our knowledge!

It is a most effectual tonic and agreeable stimulant, suited to all conditions of life.

The report that it relies upon mineral substances for its active properties are wholly false.

The original quality and high standing of these goods will be sustained under every and all circumstances. They have already obtained a sale in every town, village, parish and hamlet among civilized nations. Base imitators try to come as near our name and style as they can, and because a poor article cannot be sold as low as a good one, they find some support from parties who do not care what they sell. Be on your guard. See our private stamp over the cork.

LYON'S KATHAIRON.

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and clean.
It makes the hair rich, soft and glossy.
It prevents the hair turning gray and falling off.
It restores the hair upon prematurely bald heads.

This is just what Lyon's Kathairon will do. It is pretty—it is cheap—durable. It is literally sold by the car-load and yet its almost incredible demand is daily increasing, and there is hardly a country store that does not keep it, or a family that does not use it.

LYON'S EXTRACT GINGER.

LYONS' EXTRACT OF PURE JAMAICA GINGER.—For Indigestion, Nausea, Hartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its careful preparation and entire purity make it a cheap and reliable article for culinary purposes. Sold everywhere at fifty cents a bottle. Ask for "Lyon's" Pure Extract. Take no other. See that the private U. S. stamp of Demas Barnes & Co., is over the cork of each package.—None other is genuine.

MUSTANG LINIMENT.

Have you a hurt child or a lame horse? Use the Mexican Mustang Liniment.

For cuts, sprains, burns, swellings and caked breasts, the Mexican Mustang Liniment is a certain cure.

For rheumatism, neuralgia, stiff joints, stings and bites, there is nothing like the Mexican Mustang Liniment.

For spavined horses, the poll evil, ringbone and sweeney, the Mexican Mustang Liniment never fails

For wind galls, scratches, big-head and splint, the Mexican Mustang Liniment is worth its weight in gold.

Cuts, bruises, sprains and swellings are so common and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

"In lifting the kettle from the fire, it tipped and scalded me terribly. * * The Mustang Liniment extracted the pain and caused the sore to heal rapidly, and left very little scar.

CHAS. FOSTER, 420 Broad str., Phil.

Mr. S. Litch, of Hide Park, Vt., writes: "My horse was considered worthless, (spavin) but since the use of the Mustang Liniment I have sold him for $150. Your Liniment is doing wonders up here."

ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to all persons recovering from debility whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. YOUNG, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skilful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco. Dec-3m

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he in slst on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—NEWS

A NEW AND GRAND EPOCH IN MEDICINE.—Dr. Maggiel is the founder of a new Medical System! The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all-healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. All Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggiel's Salve. In fact, it is here announced that MAGGIEL'S BILIOUS, DYSPEPTIC AND DIARRHEA PILLS cure where all others fail. Which for Burns, Scalds, Childblains, Cuts and all abrasions of the skin MAGGIEL'S SALVE is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, R. H. McDonald & Co., San Francisco, and all Druggists, at 25 cts. per box.

LARGE HOTEL.—The Leland Brothers, who own the Occidental hotel in San Francisco a large hotel in New York, and one at Saratoga have just completed another at Springfield, Illinois, said to be the finest public house in the West, and is to be under the immediate management of Horace Leland. The hotel just finished is said to be truly magnificent in all its departments. The following is a condensed description. The hotel is 152 feet in length by 117 in width, and from ground floor to dome is 110 feet in height. It contains 200 rooms, and can seat nearly 400 guests at once in the dining hall. In its construction over 2,000,000 bricks were used in the side and rear walls—the front is of Joliet cream-colored marble—and over 2,000,000 feet of lumber were used in the interior and in the roof. It is owned by a joint stock company, with a cash capital of $400,000, with the privilege of increasing it to $500,000. It is complete in all its appointments, and furnished throughout in the most elegant and fashionable style.

FACTS VS. THEORIES.—"Give me a place to rest my lever on," says Archimedes, "and I will move the world." "Give me pure and unadulterated drugs," says Medicus, of olden time, "and I will cure all disease."

In one sense, both of these learned pundits were the veriest charlatans. They knew there was no place to rest their lever on either to move the world or to cure disease. Mechanism was in a backward state, and the medical profession was but another name for sorcery, and all the adjuncts of magic filter and charms of the "evil eye," etc.

But these latter days have born unto us something more than even superstition and their crew ever dream't of in their maddest philosophy. In these days of practical science, what was theory yesterday is fact to-day, and all the old time notions become bubbles in the sun, and bursts and break with every breath we draw.

Let Archimedes meander his lever and we will find a resting place for it to move the world. Let mine ancient Medicus pant and toil no more for the drugs he so surely needs, for we have that at our hand, ever ready to serve them at his beck.

Refined in the laboratory of Dr. Maggiel, the finest materials known in the medical profession are obtainable by any one. His Bilious Dyspeptic, and Diuretic Pills stand unrivalled, and Salve operates with magical effect upon burns, scalds, and all sores and ulcers of the skin.

In fact, we think Maggie's Pills and Salve are the wonder of the century, and we are happy in the thought that many others of our brethern of the craft agree with us. We would earnestly counsel that all females provide themselves with Dr. Maggiels Preperations at once, and keep them ready at hand, so as to use them at the most opportune time and as occasion serves.—*Valley Sentinel.*

MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, upstairs entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason an 1 morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhœa, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfill our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to Dr. PERRAULT, corner of Sacramento and Montgomery streets, Rooms, 10 and 11, or Box 973, P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc.

MEDICAL.

DR. CHAS. H. TOZER'S
PRIVATE MEDICAL INSTITUTE,
N. E. Corner of Kearny and Jackson Streets,
SAN FRANCISCO.

The Great Eradicator of Special complaints, formerly of Locke Hospital, London, Eight Years in Sacramento, and the last Four Years in San Francisco.

DR. TOZER'S

Experience is of forty year's standing, and during that time he has met with unparalleled success in the treatment of all those diseases generally known as Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those addicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering: Nervous Debility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the Hands, Headache and an aversion to genetal society, especially that of females. There are a great many more, but these are sufficient, and should you be suffering from any of them, call on Dr TOZER, and he will cure you in a short time, without any interruption to your business—or state your case by letter, and there will be no occasion for your calling at the office.

Stricture of the Urethra

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of its terrible results. The worst cases cured in a few days.

Venereal Diseases,

In all their various forms, either Primary, Secondary or Hereditary, completely eradicated from the system. Your constitution being restored to perfect health, there will be no danger of handing down to your children that terrible disease known as Scrofula.

Syphilitic Disease,

As it presents itself on this coast, is of a more formidable character than that seen in the Atlantic States or Europe, arising from the fact of its being a compound of Spanish, Chinese and Sandwich Isl and disease. Those of you who have visited the two countries no doubt have seen the dreadful effects of it on the native and foreign population. It requires altogether different modes of treatment.

The Old Formulas

Of Ricord, Acton and Bostwick, are of little account, except to dry up the disease on the surface, leaving the poison in the blood, which, sooner or later, will show itself as a secondary disease in an aggravated form. These facts I have learned by experience, and think I can say without boasting, that I have seen more practice in these diseases than any other physician in San Francisco, dating, as it does, from 1849. It becomes you, therefore, to think well before you employ a physician. Who is the proper one to consult? An old experienced one, or one who has recently settled among you?

My plan is purely vegetable, destroying the disease and purifying the blood so that there is no danger of secondary symptoms.

Rheumatism, Neuralgia,

And diseases arising from the use of mercury, such as pains in the skin bones, swellings of the different joints of the body, running sores, etc., and impurities of the blood, cured in a short time by the use of my VEGETABLE MIXTURES, known only to myself.

Seminal Weakness,

Should you be addicted with any of the following symptoms, such as weakness of the Back and Limbs Pain in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory, Confusion of Ideas, and Depression of Spirits, Evil Forebodings, Self distrust, and an aversion to society, consult DR. TOZER at once, and he will restore you to perfect health.

To Females,

When you are afflicted with Weakness of the Back and Limbs, Head, Loss of Muscular Power, Palpitation of the Heart, Irritability, Nervousness, Extreme Urinary Difficulties, Derangement of the Monthly Sickness, Sterility, and other diseases peculiar to females, consult DR. TOZER, and you will receive particular attention. Let no false delicacy prevent you, but apply at once, and save yourself from painful suffering and premature death.

My rooms are so arranged that there is no danger of exposure, and of meeting any one save the Doctor

A Grateful Acknowledgement to Skillful Gentlemen.

SAN FRANCISCO, June 1, 1866.

Dr. Chas. H. Tozer:—Dear Sir: You will excuse me for not writing to you sooner. You will please remember me as the individual who called on you for assistance about a year ago. The roof of my mouth had completely rotted out, and my palate dropped and there remained, stopping up the passage so that I could hardly eat. You remember you cut it out at once, which relieved me immediately, and I was enabled to swallow my food, and in a short time began to improve. I took your medicine, and followed your directions for several months. You finally succeeded in stopping the disease, saving my nose and upper lip, though you frequently cautioned me about losing it. I continued to improve until you finally recommended me to go into the country, and before going, by your advice, I had a cast taken of my mouth, in order that I could have a plate made for me to enable me to speak so as to be understood, and am now using it. My eternal thanks are due to you for the perseverance and skill that you displayed in my case; and I have to thank you for my restored health, and even my life, as I was very near bleeding to death several times from the nose. I am now in Sacramento City, enjoying good health, and I shall recommend all my friends to call on you should they be so unfortunate as to require assistance; and I would advise all persons to avoid certain scientific doctors in your city, for they will send them to a land from whence no traveler returns.

With my best wishes for the success of both of you, I remain, yours, etc., S. S. T.

PRIVATE MEDICAL AID.
QUICK CURES AND MODERATE CHARGES.
DR. W. K. DOHERTY'S
Private Medical and Surgical Institute
Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Sexual Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Disability, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He does no mercury, employs moderate, treats his patients in a correct and honorable way, and has references from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

DR. DOHERTY would call attention to the following certificates from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity and they are given more to warn the unwary than to sound the praise of a Physician, of whom hundreds of like cases can be cited during a practice of more than fifteen years.

DR. DOHERTY—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make you some written acknowledgement for your valuable services—particularly as your fee was small, for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best, (some of whom have a large number of times,) I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the stricture is all removed, and my general health is better than it has been for years.

In conclusion, I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease I used a large amount of the preparations advertised as an infallible cure for Gonorrhœa, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours,
L—— H——.

San Francisco, June 16, 1864.

Subscribed and sworn to before me, this 21st day of June, A. D. 1864.
[L. S.] A. S. GOULD, Notary Public.

Seminal Weakness—A Sworn to Certificate of a most Remarkable Cure of Spermatorrhœa.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of self-abuse, but till 1865 experienced but little trouble or inconvenience. In that year however, I had Seminal Weakness to an alarming extent, which was soon followed by the most alarming symptoms as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was afflicted to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1863 I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and, now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself JAMES JOHNSTON.

Subscribed and sworn to before me, this 15th day of January, A. D. 1864.
[L. S.] A. G. RANDALL, Notary Public.

K. Doherty, at his Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. THIS CELEBRATED INSTITUTE

has enjoyed for the past ten years unbounded success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospitals in London, and the noted and well-established Hospital in Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it, they drive the bloom from the cheek, the lustre from the eye, the strength from the frame, they give to the world puny and diseased offspring, and poison thro' successive generations the race of man. The marks can be seen in Scrofula, Consumption, Deformities, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venereal Poison. The mildest forms, by retracting in the blood, break over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath. The apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT,

Cures are Always Guaranteed.

In syphilis and its adjuncts; Gonnorrhœa and its accompanying diseases, and all diseases of the Bladder, Kidneys, and prostrate; Seminal Weakness Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient consumption, and all diseases of the urinary organs, in either sex, cured always warranted, NO PAY REQUIRED, at the

Seminal Weakness or Spermatorrhœa

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable fading of the powers of the mind, distaste for society, dread of impending trouble, foreboding of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life drifting on in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere question of its appearance brings no assurance or relief.

Marriage, that holy office, the safe guard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one, who looks to him for so much of her happiness, is a victim to his evil, and an unbeat companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no resting except in proper and skillful treatment. Consult them, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which hurls thousands of sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All the affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.

Sent by Mail or Express, to any part of the State. The GREAT FEMALE MEDICINE! PREVENTIVE POWDERS for MARRIED LADIES. New, Safe and Infallible, lasting from four to six months. Price, $10.
